---

## SUMMARY

---

Junior Frontend Web Developer, with 2 years of commercial experience. I want to work on React projects. My emphasis at work is to always prioritize, work on one tiny thing at a time, and use deliberate practice to learn.

## WORK EXPERIENCE

---

### Fream Sp. z.o.o.

Aug.2017 – Jul.2019

#### *Junior Frontend Web Developer*

- Large project in Polymer. Coded **Figma** designs for subscription, payment, billing features.
  - Handling credit cards, errors, monthly billing, cancellation.
- Polymer project. Coded over 50 features. Involved profiles, project lists, menus, color palettes.
  - Figured workaround for dropdown menus. **Saved a lot of development time per menu.**
- Coded over 40 complex e-mail templates. In line with practical browser compatibility.
- Gained experience learning from mentors and working in big projects with **Agile methodology and SCRUM.**
- Technologies: **Javascript, Polymer 1.9.3, REST, CSS, SASS, RWD, HTML**

## EDUCATION

---

### University of Economics in Wrocław, Poland

Sep.2010 – May.2016

*Master's degree in International Economic Relations, Specialty: International Business*

### Languages

- Polish: native. **English: C2.**

## SKILLS

---

**React:** using state, custom hooks, props, React context, components composition.

**Javascript:** using functions and their scopes, IIFE's, hoisting, closures, objects, arrays, promises, ES6.

**CSS:** using BEM, template literals, flexbox, box model, positioning, viewport units, media queries.

**SVG:** using path to draw custom shapes, animating along a path, composing shapes, integrating SVG with React.

**Other:** using REST, database endpoints, basic NoSQL databases, HTML

## PROJECTS

---

### Oxus Flashcards

Jun.2022 – Aug.2022

#### *Web Development, Design*

- Link: <https://oxus.netlify.app>
- A user can manage their list of decks of flashcards. Edit text/image in a card. Shuffle it based on difficulty.
  - Users can take a photo with a phone, directly add to flashcard. Saves on database for a logged user.
- **Large-scale app. Authentication. Database. UI/UX. RWD.**
  - Server request occurs only upon a deck edition save. User can edit every deck card in a deck edition.
- Technologies: **React, ES6 Javascript, CSS, BEM technique, HTML**

## Carbyne Explorations

Aug.2022 – Sep.2022

*Web Development, Design*

- Link: <https://carbyne-explorations.netlify.app>
- Blog app with an extremely specific UI/UX solution. Involves animated menu solution with abstract shapes.
- **Coding SVG graphics and SVG animations.** Making **SVG's interactive with React and CSS.**
- Technologies: **React, ES6 Javascript, SVG, CSS, HTML**

## Vimeo Searcher

Sep.2022 – Sep.2022

*Web Development, Design*

- Link: <https://vimeo-searcher.netlify.app>
- Displays videos on search. **Uses external platform API. Stores results locally.** Fitting UI and loader design.
- Technologies: **React, ES6 Javascript SVG, CSS, HTML**

## INTERESTS

---

Chess, healthy lifestyle, daily exercising, training my communication skills, writing, book authors such as J. Waitzkin, B. Oakley.
