

Jan Pilik jpilik52@gmail.com ❖ 513 583 840 ❖ <https://github.com/munrhalls>

Junior Frontend Web Developer, with 2 years of commercial experience. I want to work on React projects. My emphasis at work is to always prioritize, work on one tiny thing at a time, and use deliberate practice to learn.

WORK EXPERIENCE

Junior Frontend Web Developer at Fream Sp. z.o.o.

Aug. 2017 – Jul. 2019

- Large project in Polymer. Payment, billing features. Credit cards, errors, monthly billing, cancellation.
- Polymer project. Over 50 features. Pages, profiles, lists, menus, color palettes. Over 40 e-mail templates.
- Figured workaround for dropdown menus. Saved a lot of development time per menu.
- Gained experience learning from mentors and working in big projects with Agile methodology and SCRUM.
- Technologies: **Javascript**, Polymer 1.9.3, REST, **CSS**, SASS, RWD, **HTML**, GIT, VSCODE

SKILLS

ES6 **Javascript**, **React**, **CSS**, **RWD**, REST, basic NoSQL database

Languages: English - C2, Polish - native

PROJECTS

Oxus Flashcards - <https://oxus.netlify.app>

User can manage their list of decks of flashcards. Edit text/image in a card. Shuffle it based on difficulty. Large-scale. Authentication. Database. UI/UX. RWD. Minimizing requests to server.

React, ES6 **Javascript**, CSS, BEM technique, HTML

Carbyne Explorations - <https://carbyne-explorations.netlify.app>

Ancient galaxy-theme UI. Categories drift in a river pattern. Click shifts graphics to category color. SVG graphics, animations. Events change SVG parameters with template literals, React context and state.

React, ES6 **Javascript**, SVG, CSS, HTML

Vimeo Searcher - <https://vimeo-searcher.netlify.app>

Displays videos on search. Uses external platform API. Stores results locally. Fitting UI and loader design.

React, ES6 **Javascript** SVG, CSS, HTML

EDUCATION

University of Economics in Wroclaw, Poland

Master's degree in International Economic Relations, Specialty: International Business
