University of Warsaw

2016-2020

PROFILE

Frontend Developer with nearly 3 years in the industry. Experienced in e-commerce and creating high-performance, SEO-optimized websites.

EXPERIENCE

FRONTEND DEVELOPER

CompanyOne

March 2022 - present

- Led the successful migration of company monolith CMS to **Next.js** and **PayloadCMS**, which cut development time by 50%.
- Developed websites using **Next.js** with **Core Web Vitals** scoring 90+ on mobile devices, maintaining sites performance, accessibility and SEO.
- Implemented cloning and batch editing features to the company's e-commerce system using **React** and Laravel, resulting in a 70% reduction in stock management time.

JUNIOR FRONTEND DEVELOPER

CompanyOne

March 2021 - March 2022

- Developed dedicated mentee pages for the foundation using Gatsby and Styled Components, resulting in a 20% increase in donations.
- Refactored legacy website built in Vue.js using **Next.js**, resulting in 40% faster loading time, and 90+ Lighthouse scores on mobile devices.

FRONTEND DEVELOPER - PART TIME

CompanyTwo

March 2022 - May 2023

- Built UI library to be used in medical startup project, promoting reusability and **React** best composition practices.
- Performed code reviews alongside with guidance for two junior frontend developers, which contributed to successful launch.
