EXPERIENCE

Th-ey React Developer

Apr 2023 - Jun 2023

- **LeanBuilding**

An application supporting building process. Worked on front-end, on development of new components and integration with back-end of Checklists, Templates, and File Catalogue. Also on generic Dialog and announcement component.

Tech stack: TypeScript, React, Zustand, React-Query, Zod. React-Grid

Various Front -end developer

Oct 2022- Apr 2023

- Various front-end odd jobs on irregular orders

Mobica Software Engineer

Jan 2022 - Oct 2022

- **NAV-13**

Supported **Navico** - one of world's leading brands in the marine, RV, and specialty vehicles industries – on building an interface which allows both gathering and displaying yacht vital parameters (speed, wind, drift etc.) as well as calibration of sensors. Roughly 60% on modifications and fixes and 40% on new features.

- **Tech stack:** TypeScript, React, Redux, WebSockets

Th-ey React Developer

Aug 2021 - Sep 2021

- **Book and Beauty**

An application for booking visits in beauty parlors (TypeScript, React, Redux). Worked on front-end. My task was to redesign admin panel.

Tech stack: TypeScript, React, Redux

PKT Blog Developer

Nov 2020 - Oct 2021

- Worked on numerous sites developed with WordPress, Joomla, and other CMS. I have been adding blog functionality and initial content to existing web sites. While usually that was rather simple and somehow boring job, it became interesting in case of problems. Then I had to add my own mini-template, modify existing one or change behavior with additional scripts, or deeply restyle existing content.
- **Tech stack:** JS, PHP, CSS

Moonheads Front-end Developer

Nov 2019 - Feb 2020

- Primarily modified web sites (usually set up with various HTML and PHP frameworks – WP, Code Igniter, company custom software). Focused rather on the **HTML / CSS / JavaScript** layer and only occasionally **PHP**. That covered changes of the appearance as well as adding / modifying functionalities (mostly forms).
- Additionally, added or modified content to the above.
- Less often I had been building simple HTML pages from the scratch and repairing and modernizing hardware.

Few examples:

- The house construction cost assessment form, modal prompting to call-back, call-back button, buttons in the section of completed projects, some calculation scripts: <https://new-house.com.pl/>
- Restyling of Chopin festival subpage: <https://nifc.pl/pl>
- Contract dispatching contact form: <https://kancelariafrankowicza.pl/>
- Various modifications: <https://anlaja.pl/>
- Built from scratch <http://spade-garage.com/>

EDUCATION

Cosinus III Post-Secondary School

- IT Technician. The program covered:
 - operating systems
 - computer networks,
 - hardware,
 - professional English
 - data base systems
 - web pages and internet applications
 - hardware diagnostics and repairs
 - administration of network operating systems
 - design and installation of local computer networks
 - data bases administration
 - programming internet applications
 - business fundamentals

Warsaw Technical University

- Faculty of Chemistry,
Organic Chemistry and Technology

CISCO

- IT Fundamentals

IT SKILLS

Apply on everyday basis and continuously improve:

HTML, CSS/Sass, JS, React, Redux, React-Router, Redux-Thunk, Material UI, TypeScript, Styled Components, Yup, React-Query

Only basic knowledge or not applied for a long time. Do not consider them as primary technology. Of course, after some time to remind (or achieve fully satisfactory level – Next.js) could work with.

PHP, SQL, Linux, jQuery, Bootstrap, PUG, Web Workers, Next.js, Web Components.

FOREIGN LANGUAGES

Polish: native

English: B2/C1

Italian, Spanish, Russian: basic

AVAILABILITY

Immediate. Full time of 40 hours a week. Living in Warsaw. No relocation. Hybrid work OK, fully remote also.

ABOUT ME – MOTIVATION etc.

What I look for is full time employment where scope covers **React** and its ecosystem. In my portfolio one can easily find examples of application.

I am fully cognizant that the main challenge is not only to produce good code but to do it on the first try.

My level of English in spoken and written permits to freely communicate with customers and colleagues, and use web resources.

Until quite recently my professional life was all about sales, however. Why the change? Why just programming?

- sales jobs require quite permanent traveling what for sometime was a significant burden and negatively impacted my life.
- the science was always my strength
- always wanted to be work for growing industry
- immediately after graduation I had a task of developing program for chemical calculations and felt good with that(these were times of paleinformatics – Turbo Pascal, Intel 8088 processors)

I am keen to learn, quite recently I have graduated as IT Technician. Currently learn Next.js. I respect company that hires me and will not abandon it for a few dollars more.

HOBBY

Gardening, cooking, music (Pink Floyd rules), tourism, biking

EXPECTATIONS

I look around for full time steady job, preferably remote. Hybrid one in Warsaw also OK. As per contract form, I would choose regular employment, however do not reject other forms. UDEMY training access would be an advantage

RODO

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).

Wyrażam zgodę na przetwarzanie moich danych osobowych dla potrzeb niezbędnych do realizacji procesu rekrutacji (zgodnie z ustawą z dnia 10 maja 2018 roku o ochronie danych osobowych (Dz. Ustaw z 2018, poz. 1000) oraz zgodnie z Rozporządzeniem Parlamentu Europejskiego i Rady (UE) 2016/679 z dnia 27 kwietnia 2016 r. w sprawie ochrony osób fizycznych w związku z przetwarzaniem danych osobowych i w sprawie swobodnego przepływu takich danych oraz uchylenia dyrektywy 95/46/WE (RODO)).

Best Regards/Pozdrawiam

Piotr Maksymiuk
