Name

Introduction

I'm a frontend developer with over 2 years of professional experience and a 3rd-year graduate of computer science. I'm well familiar with JavaScript and TypeScript, together with CSS3 and Sass. I effectively use React.js + Redux library and Next.js framework. With an openness to experience, I'm more than happy to share my knowledge and commitment with the team.

Work Experience

Frontend Developer

Company latest

09,2022 - 11,2023

Development of software for digital humanities infrastructure (e.g. digital libraries) by using Typescript with React.js and Next.js, to meet the requirements of WCAG2 standard, W3C rules. and RWD approach.

One of the projects I work on with the team:

<https://our-page>

Junior Frontend Developer

CompanyFirst

08,2021 - 9,2022

Development of software for the banking sector by using CSS with Sass and Less and TypeScript with React library. Including writing documentation, implementation of RWD concepts and code refactoring adhere to good programming practises and BEM methodology.

Academic History

WSB University in Poznan, Faculty of Computer Science

2020 - 2024
